### Honorary Editor

Hans Bloemendal, Nijmegen, The Netherlands

### Aims & Scope

The European Journal of Cell Biology, a journal of experimental cell investigation, publishes reviews, original articles and short communications on the structure, function and macromolecular organization of cells and cell components. Contributions focusing on cellular dynamics, motility and differentiation, particularly if related to cellular biochemistry, molecular biology, immunology, neurobiology, and developmental biology are encouraged. Manuscripts describing significant technical advances are also welcome. In addition, papers dealing with biomedical issues of general interest to cell biologists will be published. Contributions addressing cell biological problems in prokaryotes and plants are also welcome.

### Abstracted/Indexed in

Animal Breeding Abstracts; Biological Abstracts; Biosis; Chemical Abstracts; Current Advances in Ecological Science; Current Contents; Dairy Science Abstracts; Embase; Excerpta Medica; Helminthological Abstracts; Index to Dental Literature; Index to Scientific Reviews; INIS Atomindex; Lifesci; Medline; NISC - National Information Services Corporation; Nutrition Abstracts & Reviews; Protozoological Abstracts; Science Citation Index; Scisearch; SciVerse Scopus®; Tobacco Abstracts
