

ANNOUNCEMENTS

444th Symposium of the Society for Histochemistry

The symposium will celebrate the 50th anniversary of the Society for Histochemistry. The scientific program will be organized in association with the Dutch Society for Cell Biology, the Dutch Society for Microscopy and the European Microscopy Society.

Venue: **Grand Hotel "Arion", Vlissingen,
The Netherlands
25–28 September 2002**

Main Topic: **Proteomics in situ: imaging proteins
at work**

Workshop I: **Time lapse imaging of cells and tissues**

Workshop II: **Computer modelling in cell biology**

Workshop III: **Bioinformatics in cell biology**

Workshop IV: **Imaging protein folding diseases**

Workshop V: **Metabolic mapping in live cells
and tissues**

The Society for Histochemistry

announces the **Robert Feulgen Prize 2002 (Euro 5,000.00)** to be awarded for an outstanding achievement in the field of histochemistry. The contributions may be either towards the development of new histochemical and cytochemical techniques or in the application of existing technology towards solving important problems in biology and/or medicine.

Addressed are scientists working in microscopical sciences (in the widest sense) as well as in biochemistry, cell biology, endocrinology, in situ molecular techniques, and neurosciences. Scientists in their mid-career (assistant- or associate professor, priv. doz.) are encouraged to apply. The prize is not intended for lifetime contributions.

The applications should contain (in duplicate sets) a short curriculum vitae, a 1,000 word summary of the contributions of the applicant and reprints of the pertinent publications.

All applications should be submitted before January 31, 2002 to:

Professor J. Roth, Secretary, Society for Histochemistry
Division of Cell and Molecular Pathology
Department of Pathology, University of Zurich
Schmelzbergstrasse 12, 8091 Zurich/Switzerland
