

# Masters Titles

The following titles of masters theses were selected from *Masters Abstracts* published quarterly by University Microfilms International. The full abstract may be found in the referenced issue of *Masters Abstracts* on the page given towards the end of each entry. The last entry (MAXXXXX) gives the identification code that may be used to order a copy of the full text when available from University Microfilms International. Copies of masters theses may be obtained by addressing your request to: University Microfilms International, 300 North Zeeb Road, PO Box 1764, Ann Arbor, Michigan 48106, USA; or by telephoning (toll-free) 800-521-3042 in the US. Masters thesis titles are published with the permission of University Microfilms International, publishers of *Masters Abstracts* (copyright© 2003 by University Microfilms International) and may not be reproduced without their prior permission.

## Referenced Volume: Masters Abstr. 41(03) (2003)

**Etude sur la biostabilité et la biocompatibilité des biotextiles en polyester recouvert de polypyrrole.** X. Jiang. Université Laval (Canada). 2001. 98pp. p 760. *MAMQ73518*

**Investigation of the active sites of metallocene-catalyzed olefin polymerizations.** B.N. Boden. Queen's University at Kingston (Canada). 2002. 99p. p 791. *MAMQ72988*

**The assembly of colloids via electrophoretic deposition and templating.** R.K. Golding. University of Toronto (Canada). 2002. 141pp. p 791. *MAMQ73846*

**Dithiolene-based conjugated metallopolymers.** C.L. Kean. Memorial University of Newfoundland (Canada). 2001. 122pp. p 791. *MAMQ73603*

**Amphiphilic supermolecules constructed by linear-dendritic copolymers.** K.R. Lambrych. State University of New York College of Environmental Science and Forestry. 2002. 125pp. p 791. *MA1411580*

**Monodispersed core-shell polymer microspheres containing conductive cores and dielectric shells.** H. Li. University of Toronto (Canada). 2001. 129pp. p 792. *MAMQ74204*

**Polymer electrolyte fuel cell experimental and characterization studies using electrochemical impedance spectroscopy.** R. Ayala Caminero. University of Puerto Rico, Mayaguez (Puerto Rico). 2002. 111pp. p 815. *MA1411638*

**The effects of cell design and materials of construction on the electrolysis performance of a proton exchange membrane unitized regenerative fuel cell.** D.G. Frank. University of Toronto (Canada). 2000. 108pp. p 816. *MAMQ74200*

**Blends of EVA and metallocene-catalyzed polyethylene copolymers for adhesive and film packaging applications.** L.C. Huang. Queen's University at Kingston (Canada). 2002. 97pp. P 817. *MAMQ73036*

**Synthesis and preliminary characterization of a novel degradable thermoreversible hydrogel.** Z. Meng. University of Toronto (Canada). 2002. 97pp. p 817. *MAMQ73816*

**Mechanical properties and morphology of styrene maleic anhydride or polystyrene blends with styrene-isobutylene-styrene.** L.N. Pham. University of Massachusetts Lowell. 2002. 93pp. p 817. *MA1411287*

**Synthesis and characterization of oriented nanowires: electrocrystallization of tetrathiafulvalene bromide at polymer-modified indium tin oxide surfaces.** M.S. Rayat. University of Toronto (Canada) 2002. 75pp. p 818. *MAMQ73819*

**Composition distribution of graft copolymers.** M.W.J. Spencer. Queen's University at Kingston (Canada). 2002. 81pp. p 819. *MAMQ73089*

**Etude des systèmes ternaires HDPE/PS/PMMA et PP/HDPE/EPDM préparés par extrusion.** K. Tchomakov. Ecole Polytechnique, Montréal (Canada). In French and English. 2002. 92pp. p 819. *MAMQ73426*

**Evaluation et réduction des émissions diffuses de gazomètres servant à l'entreposage du chlorure de vinyle.** J. Verville. Ecole Polytechnique, Montréal (Canada). In French and English. 2002. 90pp. p 819. *MAMQ73427*

**Effect of composition and comonomer type on the rheology, morphology and properties of isotactic polypropylene/ethylene- $\alpha$ -olefin copolymer blends.** W. Wang. Queen's University of Kingston (Canada). 2002. 102pp. p 820. *MAMQ73275*

**Seismic retrofitting of structures using recycled plastic.** I. Santiago Burgos. University of Puerto Rico, Mayaguez (Puerto Rico). 2002. 106pp. p 827. *MA1411146*

**Deformability and ductility of partially-prestressed concrete beams containing CFRP/stainless steel reinforcements.** D.P. Tung. Queen's University of Kingston (Canada). 2002. 255pp. p 828. *MAMQ73096*

**Polyolefin elastomer blends as an alternative to poly(vinyl chloride) flooring.** N. Vyas. Concordia University (Canada). 2002. 131pp. p 828. *MAMQ72901*

**Response of a PVC-lignin blended building material to fungi attack.** H. Wang. Concordia University (Canada). 2002. 115pp. p 829. *MAMQ72904*

**Development of a biodegradable elastomer.** S. Wang. Queen's University at Kingston (Canada). 2002. 79pp. p 853. *MAMQ73100*

**Keratin protein fibers for removal of heavy metals from solutions.** P. Kar. University of Nevada, Reno. 2002. 93pp. p 855. *MA1411371*

**Plastics mergers and acquisitions: an analysis.** R.M. Case. University of Massachusetts Lowell. 2002. 84pp. p 858. *MA1411282*

**Comparative properties of flame-retarded olefinic wire and cable compounds.** S.B. Chandak. University of Massachusetts Lowell. 2002. 80pp. p 858. *MA1411129*

**An analysis and comparison of family mold optimization for a four-piece assembly through simulation.** M.G. Cunningham. University of Massachusetts Lowell. 2002. 99pp. p 858. *MA1411283*

**ABS as compatibilizer for SAN/TPE polyblends.** N.J. Gogri. University of Massachusetts Lowell. 2002. 79pp. p 858. *MA1411284*

**Effect of compatibilizer, copolymer and polypropylene type on mechanical properties of polypropylene/recycled EPDM blend.** N.R. Jain. University of Massachusetts Lowell. 2002. 61pp. p 859. *MA1411285*

**Selected properties of transparent thermoplastic alloys.** S. Malik. University of Massachusetts Lowell. 2002. 80pp. p 859. *MA1411286*

**Correlation of machine (hydraulic) pressure and predicted melt pressure in injection molding.** A. Rajan. University of Massachusetts Lowell. 2002. 103pp. p 859. *MA1411288*
