

CRYSTALS...

*our
only
business*

- SCINTEX BRAND Plastic Phosphor Scintillators
- Anthracene & Stilbene Single Scintillation Crystals
- Alpha, Beta, and Fast Neutron Scintillation Detectors
- Sodium Iodide (TL) Crystals
- Lithium Iodide (EU) Crystals
- Cesium Iodide (TL) Crystals
- Optical Crystals
- Special Crystals Grown To Order

SCINTEX BRAND PLASTIC PHOSPHORS are used in exacting research applications as well as in standard instrumentation where stable, long-life performance characteristics are demanded at an economical cost.

We unconditionally guarantee the performance, workmanship and materials of our SCINTEX BRAND Plastic Phosphors for one year in normal usage.

a subsidiary of Isotopes, Inc.

Product Capsules

of Union Carbide Corp., 30 E. 42 St., N. Y. 17, N. Y. **54A**

Filter Papers. Circle 18A for complete information on Whatman filter papers. H. Reeve Angel & Co., Inc., 52 Duane St., N. Y. 7, N. Y. **18A**

Filter Papers. Circle 53A for the S & S analytical filter paper sampler. Also included with sampler is filtration chart, indicating relative values of retention; table of comparative filter paper grades; valuable "quick reference" catalog; and bulletin on chromatography and electrophoresis. Carl Schleicher & Schuell Co., Kenne, N. H. **53A**

Gas Mixtures. Circle 40A-1 for gas catalog listing gas mixture services, regulators, valves, flowmeters and accessories. The Matheson Co., Inc., E. Rutherford, N. J. **40A-1**

Isobutyraldehyde. Useful in themselves or as intermediates, derivatives of isobutyraldehyde are becoming important as a source of solvents, plasticizers, pharmaceuticals, polymers, resins, insecticides, hydraulic fluids and lubricants. Circle "2nd cover" for samples. Eastman Chemical Products, Inc., Kingsport, Tennessee.

2nd cover

Reagents. The following "Baker Analyzed" reagents are used in determining potassium: sodium tetraphenylboron, sodium cobaltinitrite, perchloric acid, and chloroplatinic acid. Circle 31A for complete information. J. T. Baker Chemical Co., Phillipsburg, N. J. **31A**

Silicate Stone. Company's chemical resistant natural silicate stone can be cut, drilled, tongue-and-grooved, refinished and reused almost indefinitely. Alberene Stone Corp., 419 4th Ave., N. Y. 16, N. Y. **28A**

MISCELLANEOUS

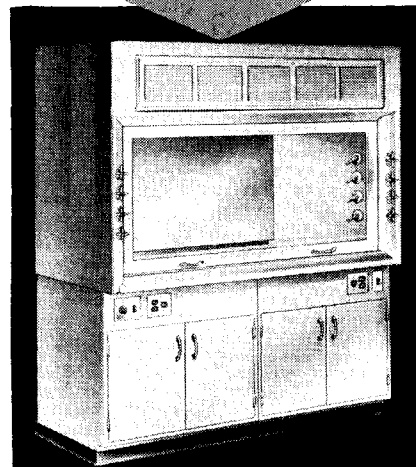

Marking Pens. Pen writes on glass, ceramics, plastic, metal with brilliant, opaque, rubproof inks in many colors. Mark-Tex Corp., 453 W. 17th St., N. Y. 11, N. Y. **75A-2**

Spectrogram Catalog. Information available on the Sadtler standard spectra, midjet edition. A serviceable collection of 11,950 usable organic compounds indexed by ASTM-IBM cards. Sadtler Research Laboratories, 1517 Vine St., Phila. 2, Pa. **6A-2**

Spectroscopy Bulletin. Circle 97A-4 and be added to the mailing list for "Spectrovision," a quarterly distributed freely to all interested in spectroscopy. Unicam Instruments Ltd., Arbury Works, Cambridge, Eng.

new Kewaunee AIRFLOW THINWALL FUME HOODS

Give You More Work Space Take Up Less Room Space

Here's good news for laboratories—especially those with limited space. Kewaunee's new Airflow Thinwall Fume Hoods provide 5 inches more working space in 4 inches less room space.

Rigorous testing and actual laboratory use indicate that the new Thinwall Hoods are only slightly less efficient than Kewaunee Supreme Hoods, and have approximately 50% greater efficiency than most conventional Hoods.

It has a variety of outstanding features, too. Eye-level remote control and service fixtures . . . automatic bypass . . . exceptionally attractive appearance. In every detail you'll find the Thinwall has been thoughtfully designed to fill a real need—and craftsman-built for years of efficient, economical use.

Get full details on Kewaunee's complete line of Fume Hoods—from the handy, portable Flexi-hood to the big Airflow Supreme—in this new 48-page catalog. Shows photographs, drawings, specifications, operating data, and other helpful information. Send for your copy now—it's free.
