Scope of the journal

The *Journal of Applied Geophysics* is the continuation of *Geoexploration* founded in 1965 by the Geoexploration Publishing Group in Stockholm, originally for mining geophysics. The new title is designed to reflect the widening scope of the applications of geophysics. To meet modern needs the *Journal of Applied Geophysics* places particular emphasis on environmental, geotechnical, engineering and hydrological aspects, at the same time welcoming papers in traditional subjects like mining and petroleum geophysics. Petrophysics in its widest sense including soil and rock-mechanical properties is another aspect that is covered by the *Journal of Applied Geophysics*.

Publication Information: *Journal of Applied Geophysics* (ISSN 0926-9851). For 2011, volumes 73–75 are scheduled for publication. Subscription prices are available upon request from the Publisher or from the Elsevier Customer Service Department nearest you or from this journal's website (<http://www.elsevier.com/locate/jappgeo>). Further information is available on this journal and other Elsevier products through Elsevier's website: (<http://www.elsevier.com>). Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe).
