

New!

GAS CHROMATOGRAPH

13" W
x 14" H
x 12" Deep

ChromAlyzer-100

\$445⁰⁰

Where else can you get
such quality features at so
irresistible a price?

- Operates from ambient to 400° C.
- Separates and detects materials with boiling points up to 550° C.
- High sensitivity—4-filament detector (exclusive in this price range)
- Uniform, stable temperature operation.

Accommodates a wide range of interchangeable columns up to 24 feet long. Numerous packings available . . . also sample collector. Has eleven-step attenuator, including ultra-sensitive and super-sensitive positions; coarse and fine controls for recorder adjustment. 12 Volt D-C solid state Power Supply and potentiometric recorders available.

(Recorder Bulletin No. 800)

INSTRUMENTS CORP.**

Electronics Division/Labline, Inc.

3070-82 West Grand Avenue

Chicago 22, Illinois

Circle No. 192 on Readers' Service Card

PROGRAM

Printing, Norman Walker, Fisher Scientific Co.

Exposition:

Chairman, Rudolph B. Friconi, Allegheny-Ludlum Steel Corp.
Chairman-Elect, J. K. Hurwitz, U. S. Steel Research Laboratories

Finance:

Chairman, Joseph S. Rudolph, Westinghouse Material Engineering
Chairman-Elect, R. K. Scott, Harbison-Walker Research Laboratories

Activities:

Chairman, Mrs. Mary H. Loeffler, Westinghouse Research Laboratories
Chairman-Elect, Eleanor L. Saier, Gulf Research & Development Co.

Arrangements:

Chairman, Lynn L. Lewis, U. S. Steel Research Laboratories
Chairman-Elect, W. J. Crawford, Jr., Jones & Laughlin Research Laboratories

Dinner:

Chairman, Robert J. Nadalin, Westinghouse Research Laboratories
Chairman-Elect, Edward R. Shuster, Nuclear Materials & Equipment Co.

Employment:

Chairman, Richard E. Hein, Mellon Institute
Chairman-Elect, Charles J. McCafferty, Pittsburgh Plate Glass Research

Publicity:

Chairman, Robert Frankenthal, U. S. Steel Research Laboratories
Chairman-Elect, Bruce M. LaRue, Weirton Steel Co.

Registration:

Chairman, Richard T. Oliver, Alcoa Research Laboratories
Chairman-Elect, Frank E. Dickson, Mellon Institute

Foreign Liaison:

Chairman, Hugh F. Beeghly, Jones & Laughlin Steel Research Laboratories

Advisory:

Chairman 1961, A. G. Sharkey, U. S. Bureau of Mines
Chairman 1960, Laben M. Melnick, U. S. Steel Research Laboratories

Sponsoring Organizations

Society for Analytical Chemistry of Pittsburgh, James P. McKaveney, Chairman
Spectroscopy Society of Pittsburgh, Donald L. Petitjean, Chairman

PROGRAM

A.S.T.M.—COMMITTEE E-13— ABSORPTION SPECTROSCOPY

Advisory Group—(Open to All Conferees)

Sunday, March 4, 8:00 P. M.

Parkview Room—Club Floor

SUNDAY SOCIAL HOUR

Sunday, March 4, 7:00 P. M.

Terrace Room—Main Floor

Monday, March 5 ANALYTICAL CHEMISTRY— ELECTROCHEMICAL METHODS

Monday Morning—Ball Room
J. P. McKaveney, Presiding

- 8:30 Coulometric Power Supplies: Some New Approaches. W. T. Barnes and D. E. Wilson, General Dynamics Corp.
- 8:50 Galvanic Determination of Hydrogen. Paul Hersch, Beckman Instruments, Inc.
- 9:10 Improved Electrolytic Hygrometer Cell. J. W. Reeds and A. J. Petersen, Beckman Instruments, Inc.
- 9:30 Study of Reference Electrode Liquid Junction Potentials. George Matsuyama, Beckman Instruments, Inc.
- 9:50 Use of Amperometric Oxygen Electrode for Determining Dissolved Oxygen. R. Jones and H. Watanabe, Beckman Instruments, Inc.
- 10:30 Effects of Slow Chemical Processes in Automatic Redox Titrations. R. E. Cover and Louis Meites, Polytechnic Institute of Brooklyn.
- 10:50 Differential Potentiometric Determination of Selenium and Tellurium in Refined Selenium Products. Silvio Barabas and P. W. Bennett, Canadian Copper Refiners, Ltd.
