

## TIME-SAVERS BY TROEMNER

**1. precision laboratory balance—Model 410**—Sensitivity 2 mg. Capacity 120 g. No bands or wires to bend or lose "life." Handsome blue-gray heavy metal case. Weighs to full capacity with lid closed **\$165.**

**2. Heavy-duty precision balances—Models 195-B and 2-89B**—Capacities 3 or 6 kg. Sensitivity as fine as 100 mg. Locking tare weight. Beams graduated in mg., g., or oz. **From \$95.**

**Oa Specific-gravity chain balance—Model S100**—Ideally suited for S.G. determinations of liquids and solids to within 0.0001. Also operates as a sensitive chain analytical balance. **From \$168.**

*Write for complete information on these and the complete line of quality Troemner balances and weights.*

## Product Capsules

**Chromatographs.** Copy of gas-chrom newsletter offered. **24**

**Chromatographs.** Info on line of modular gas units. **65**

**Chromatographs.** New programmed temp, control gas unit. **85**

**Chromatographs.** Info on gas units and accessories. **127**

**Chromatographs.** New gas unit has dual column temp, programming. **137**

**Clamps.** New easily secured support frame clamps. **33**

**Comparators.** Copy of "Modern pH and Chlorine Control" offered. **70**

**Computers.** Computer, data converter for liquid scintillation spectrometry. **225**

**Computers.** New low-cost unit for NMR spectroscopy. **234**

**Conductivity Bridges.** Info on line offered. **118**

**Connectors.** Catalog on line of plastic connectors offered. **111**

**Counters.** Details on counter for particle size analysis. **138**

**Crystals.** Booklet, "Polished Optics" offered. **2**

**Densitometers.** Bulletin on unit for thin layer chromatography. **60**

**Desiccants.** 100-page book on desiccants for solids, liquids, gases. **40**

**Detectors.** Ionization detectors for gas chromatography. **204**

**Detergents.** Cleans glassware in cold water. **52**

**Dewar Flasks.** Bulletin on plastic unit in diameters of 3 to 12 inches. **236**

**Distillation Units.** Copy of "Modern Fractional Distillation Equipment." **15**

**Dry Boxes.** Catalog on laboratory furniture offered. **112**

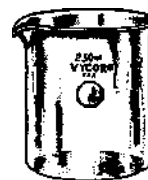

**Electrodes.** Catalog on line of 121 pH electrodes. **229**

**Electrodes.** High purity spectroscopic electrodes. **42**

**Electrodes.** Bulletin on pH electrodes and buffers. **130**

**Electrodes.** New 6 inch spectroscopic electrodes. **224**

**Electrophoresis Strips.** Info on four grades of strips. **68**

**If you use  
clear fused quartz,  
... check these  
prices**

This is VYCORS brand labware. Compare it with fused quartz:

You can work continuously at 900° to 1000°C. (1652° to 1832°F.) with this' 96% silica ware.

It will even go to 1200°C. (2102°F.) for short periods.

It will withstand a 900°C. thermal shock without a shudder.

But it costs considerably less.

The line is quite complete. You'll find 72 items in beakers, crucibles, dishes, flasks, ground joints, heaters, tubes; 33 different sizes of tubing. They're all listed and indexed in our regular PYKBX® brand ware catalog. If you don't have a copy, write for one.

\*All the prices above are net each. You can get the prices even lower since we give our regular labware quantity discounts which range as high as 28%.

If you have any questions, write to Laboratory Glassware Dept., 3903 Crystal St., Corning, N. Y.
