

ACS SYMPOSIUM SERIES 611

# Halon Replacements

## Technology and Science

**Andrzej W. Miziolek, EDITOR**

*U.S. Army Research Laboratory*

**Wing Tsang, EDITOR**

*National Institute of Standards and Technology*

Developed from a symposium sponsored  
by the Division of Environmental Chemistry, Inc.  
at the 208th National Meeting  
of the American Chemical Society,  
Washington, DC,  
August 21–25, 1994

American Chemical Society, Washington, DC 1995

## Halon replacements

## Library of Congress Cataloging-in-Publication Data

Halon replacements: technology and science / Andrzej W. Miziolek, editor, Wing Tsang, editor.

p. cm.—(ACS symposium series; 611)

"Developed from a symposium sponsored by the Division of Environmental Chemistry, Inc. at the 208th National Meeting of the American Chemical Society, Washington, D.C., August 21–25, 1994."

Includes bibliographical references and indexes.

ISBN 0–8412–3327–6

1. Fire extinguishing agents. 2. Halocarbons.

I. Miziolek, Andrzej W., 1950– . II. Tsang, Wing, 1935–  
III. American Chemical Society. Meeting (208th: 1994: Washington, D.C.) IV. Series.

# Foreword

THE ACS SYMPOSIUM SERIES was first published in 1974 to provide a mechanism for publishing symposia quickly in book form. The purpose of this series is to publish comprehensive books developed from symposia, which are usually “snapshots in time” of the current research being done on a topic, plus some review material on the topic. For this reason, it is necessary that the papers be published as quickly as possible.

Before a symposium-based book is put under contract, the proposed table of contents is reviewed for appropriateness to the topic and for comprehensiveness of the collection. Some papers are excluded at this point, and others are added to round out the scope of the volume. In addition, a draft of each paper is peer-reviewed prior to final acceptance or rejection. This anonymous review process is supervised by the organizer(s) of the symposium, who become the editor(s) of the book. The authors then revise their papers according to the recommendations of both the reviewers and the editors, prepare camera-ready copy, and submit the final papers to the editors, who check that all necessary revisions have been made.

As a rule, only original research papers and original review papers are included in the volumes. Verbatim reproductions of previously published papers are not accepted.
